

REMARKS

Claims 1, 2, 8, 10-16, 22, 24-30, 36 and 38-40 are presented for examination, of which Claims 1, 15 and 29 are in independent form, and have been amended to define still more clearly what Applicant regards as his invention. Favorable further consideration is respectfully requested.

After careful consideration of the comments helpfully provided in the Advisory Action, Applicant submits the following additional observations. In the *Stockwell* system, there is added a generic rejection reason, and the message headers are sanitized, according to col. 15, lines 59-64. Even if *Stockwell* does sanitize the message headers, however, Applicant does not see how this would teach or suggest making a decision as to whether to store, or to delete, each part included in a text of a multipart e-mail, as is recited in each of the independent claims. At least by virtue of this feature, the present independent claims are believed to be allowable over *Stockwell*, taken alone or in combination with the other art of record (assuming that such combination would be proper).

Applicant's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,
